

Please Don't Flush Trash!

Put it in the trash can, recycle bin, compost, don't put it in the toilet.

The sewer system is a multi-million-dollar project and we need your help to ensure the longevity of your investment. Damage to our sewer lines, pumps, and equipment not only means expensive fixes, but possible sewer overflows and back-ups which can cause health hazards, damage to home interiors, and threats to the environment.

Think trash... not toilet. These items belong in the trash can:

- Bandages and bandage wrappers
- Cleaning wipes
- Coffee grounds
- Condoms
- Cotton ball, cotton swabs, & pads
- Dental floss/teeth whitening strips
- Disposable diapers, nursing pads & baby wipes
- Expired/unused prescription medication or OTC medications
- Fabrics
- Facial wipes
- Grease, fats or oil of any type
- Kitty litter/fish tank gravel
- Maxi-pads
- Tampons & applicators
- Produce stickers
- Rubber and latex gloves
- Needles
